## **Applied Exercise Science**

The concentration in Applied Exercise Science is designed to prepare educators and non-educators for careers in the field of Strength and Conditioning. This program is appropriate for individuals interested in coaching, personal training, corporate wellness, and clinical exercise science. The Applied Exercise Science program provides learning experiences by combining exercise science theory with practical application. Students will gain the requisite knowledge, skills, and dispositions to attain the National Strength and Conditioning Association (NSCA) Certified Strength and Conditioning Specialist (CSCS) certification and/or the American College of Sports Medicine (ACSM) Health/Fitness Instructor certification.
