MASTER OF EDUCATION DEGREE IN SPORT SCIENCES SPORT EDUCATION (35 S.H.)

The graduate program in the Department of Sport Sciences at Ashland University provide quality educational experiences, advance knowledge, and promote leadership development. Through instruction, scholarly activity, and University and professional service, the inter-related academic areas of health, recreation, and physical education contribute to the physical, cognitive, social, and affective development of individuals across the life-span. The department generates new knowledge, nurtures attitudes and presents information relating to human movement, pedagogical, coaching, leisure and training related activities. The program is for students interested in improving teaching and coaching careers who desire advanced training in sport coaching, sport training, sport management, sport psychology, educational administration, or outdoor education.

Sport Education

The concentration in Sport Education is designed to prepare educators or non-educators for careers in the domain of sport and coaching. This program is appropriate for individuals who desire advanced training in coaching and/or physical education, or for anyone interested in the sport sciences. The Sport Education program provides learning experiences by combining theory with practical application. This program is very flexible in that students can address career goals and emphasize individual areas of interest through appropriate selection of elective coursework.
